PRODUCT DESCRIPTION:

The guardrail section, 2000 mm is part of the modular guardrail system. The guardrail can be assembled according to the needs of your operation. Surface treatment solved with powder paint. Yellow traffic colour RAL1023 increases the visibility of the column and warns of obstacles, which contributes to greater safety.

USE:

The protective guardrail is used to create a protective corridor, separate and protect pedestrian zones, machines and technologies, both inside and outside buildings. It can be used mainly in warehouses, distribution warehouses, factories, etc.
